## Research on Sustainable Biomass Conversion

Guest Editor:

**Dr. Arkadiusz Dyjakon**

Department of Applied Bioeconomy, Waste Biomass Valorization Group, Faculty of Life Sciences and Technology, Wrocław University of Environmental and Life Sciences, 50-375 Wrocław, Poland

Deadline for manuscript submissions:

**closed (31 January 2024)**

### Message from the Guest Editor

Dear Colleagues,

In the future, biomass will continue to play an important role in energy production. Currently, however, there is a need to increase the sustainable use of biomass residues of forest and agricultural origin, as well as from the food-processing sector. To increase its usage for energy purposes and to improve its competitiveness in the energy market, it is necessary to process biomass using various methods in order to obtain the appropriate fuel or product characterized by valuable physical–chemical properties. This Special Issue aims to present new achievements in scientific research concerning the conversion of biomass to selected forms of energy and its practical application in the energy sector.

Dr. Arkadiusz Dyjakon

## Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Control and Optimization)
