Energy-Efficient Systems and Networks

Guest Editors:

Dr. Grzegorz Waligóra
Institute of Computing Science, Poznan University of Technology, Piotrowo 2, 60-965 Poznan, Poland

Dr. Rafał Różycki
Institute of Computing Science, Poznan University of Technology, Piotrowo 2, 60-965 Poznan, Poland

Dr. Mariusz Nowak
Institute of Computing Science, Poznan University of Technology, Piotrowo 2, 60-965 Poznan, Poland

Deadline for manuscript submissions:
closed (28 June 2023)

Message from the Guest Editors

Dear Colleagues,

This Special Issue aims to present and spread widely recent advances related to theory and practice, models and applications, as well as control and monitoring of energy-efficient systems and networks of different types.

Topics of interest for publication include, but are not limited to:

- Energy-efficient systems and networks;
- New mathematical optimization models;
- Power- and energy-aware scheduling;
- Green computing and energy-efficient computations;
- Energy-efficient computation and data centers;
- Systems for charging electric vehicles, devices, machines, etc.;
- Energy-efficient systems for control and monitoring;
- Smart metering in intelligent buildings and smart cities;
- Smart energy management and smart buildings;
- Low-energy data processing in IoT.

Special Issue

Editor-in-Chief

Prof. Dr. Enrico Sciubba
Department of Mechanical and
Aerospace Engineering,
University of Roma Sapienza, Via
Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.
Journal Rank: CiteScore - Q1 (Control and Optimization)
