Selected Papers from 27th European Biomass Conference & Exhibition (EUBCE 2019)

Guest Editors:

Dr. David Baxter

Former European Commission,
Joint Research Centre, 1000
Brussels, Belgium

Prof. Dr. Solange I. Mussatto

Department of Biotechnology
and Biomedicine, Technical
University of Denmark, DK-2800
Kongens Lyngby, Denmark

Deadline for manuscript
submissions:

closed (29 February 2020)

Message from the Guest Editors

Dear Colleagues,

The European Biomass Conference and Exhibition Conference (EUBCE), 27th edition, held in Lisbon during 27–30 May 2019, is one of the world's leading R&D conferences combined with an international exhibition. EUBCE represents the leading platform for the collection, exchange, and dissemination of scientific know-how in the field of biomass and its utilization.

The 2019 conference program addressed topics from biomass production, its conversion to bioliquids and biofuels for heat and electricity, transport, and bio-based products, covering all aspects of each value chain, from supply and logistics to conversion technologies, from the industrial application of research results to its impacts on the environment, from market and trade aspects to policy strategies, and last but not least to the role of biomass as a source in integrated energy systems.

Topics to be covered in this Special Issue include, but are not limited to, the following areas:

Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
