Message from the Guest Editor

Dear Colleagues,

The main goal of this Special Issue is to ultimately inform policy-making, historical analyses of now-obsolete technologies or institutional arrangements will also be considered if they include a policy dimension. Papers can take the form of either regular research papers or reviews of relevant research.

Keywords:

- energy policy and history
- economic policy and history
- energy policy and standards of living
- energy policy and environmental externalities
- theoretical and philosophical issues in energy policy development
- economic geography

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (*Engineering (miscellaneous)*)
