Electric Propulsion and Energy Generation Systems

Guest Editor:

Dr. Clemente Capasso

Institute of Sciences and Technologies for Sustainable Energy and Mobility, National Research Council of Italy (CNR),
Via G. Marconi 4, 80125 Napoli, Italy

Deadline for manuscript submissions:

closed (30 November 2021)

Message from the Guest Editor

We are glad to extend a warm invitation to all colleagues who would like to submit their research papers to this Special Issue of *Energies*, entitled “Electric Propulsion and Energy Generation Systems”.

Electric propulsion and renewable energy generation systems represent feasible and attractive solutions for the reduction of fossil fuel dependency, with related impacts on environment and global warming.

This Special Issue will address these topics as well as advancements in conductive/inductive vehicle charging technologies, MPPT methods for PV systems, management of distributed energy systems in supporting grid voltage/frequency regulation.

Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
