Gdansk University of Technology,  
80-233 Gdansk, Poland

Deadline for manuscript  
submissions:

**closed (31 January 2022)**

### Message from the Guest Editor

This Special Issue is focused on the broad topic of energy management, economic analysis, and includes all branches of economics with a particular focus on research, both theoretical and applied, aimed at improving real-world understanding by applying economic analysis principles.

Authors should bring to their analysis whatever microeconomic or macroeconomic theoretical, experimental, or econometric tools are helpful.

Studies grounded on mathematics and statistics methods that help to bring economic theory closer to the real world are particularly appreciated.

Topics of interest for publication include, but are not limited to:

- improvement of competitiveness of economy and enterprises;
- structural changes;
- economic shocks;
- theories and policies of regional economic integration;
- pillars of sustainable development and resilience;
- modelling indicators of sustainability;
- research and innovation in sustainable development;
- management and business organization;
- development of entrepreneurship and small and medium enterprises;
- macroeconomic issues of a country, a region, or a city;
- unemployment and social problems.

Eudossiana 18, 00184 Roma, Italy

## Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Control and Optimization)
