Energy Market Participants - Economic and Legal Aspects

Guest Editors:

Prof. Dr. Waldemar Tarczyński

Department of Sustainable Finance and Capital Market, Institute of Economic and Finance, University of Szczecin, Mickiewicza Str. 64, 71-101 Szczecin, Poland

Prof. Dr. Kinga Flaga-Gieruszyńska

Faculty of Law and Administration, University of Szczecin, ul. Narutowicza 17a, 70-240 Szczecin, Poland

Deadline for manuscript submissions:

closed (31 January 2023)

Message from the Guest Editors

The issues of the participants of the energy market are multidimensional, referring both to the economic and legal aspects of the functioning of regulatory entities and other public institutions, which significantly affect the level of free competition and de-monopolization of this market, as well as the instruments of the same type addressed directly to private law entities (entrepreneurs and consumers) important for the functioning of the energy market. This Special Issue aims to present and disseminate the most recent advances related to the economic and legal aspects of the participation of various entities in the shaping and functioning of the modern energy market.

Topics of interest for publication include, but are not limited to:

- Energy finance and energy markets
- Energy demand and supply
- Relationships between energy and economic development
- Participants of the energy market from the perspective of European Union law
- Characteristics of legal norms shaping the energy policy of the state as an entity interfering with the functioning of the energy market
- Consumers as participants of the energy market
- State authorities for the regulation of fuel and energy economy

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Aerospace Engineering, University of Roma Sapienza, Via Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
