Deadline for manuscript
submissions:

closed (31 December 2020)

Message from the Guest Editors

The Guest Editor is inviting submissions to a Special Issue of *Energies* on the subject area of “European Biofuel Production, Conversion, and Economics”. Increased use of biofuels in the transport sector has influenced the agricultural and waste sectors in Europe and is expected to influence the forest sectors in the years to come. This Special Issue will deal with social, economic, and environmental impacts of European biofuel production. Topics of interest for publication include but are not limited to:

Biofuel policy incentives and impacts;

- Profitability of European biofuel productions;
- Technoeconomic aspects of advanced biofuels;
- Forest sector impacts and modeling;
- Biofuel potentials;
- Biomass availability and competition;
- Environmental impacts of biofuel production and use;
- Trade aspects of European biofuel production and use;
- Land use impacts of biofuel production;
- Leakage effects of policies;
- Greenhouse gas abatement cost estimation.

Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
