

Solutions for the Emerging Low-Energy Building Industry, Environmental Quality and Sustainable Waste Management

Guest Editors:

**Prof. Dr. Dana-Adriana ILUȚIU-
VARVARA**

Faculty of Building Services
Engineering / Department
Building Services Engineering /
Technical University of Cluj –
Napoca, 28 Memorandumului
Street, 400114 Cluj-Napoca,
Romania

Prof. Dr. Lorentz Jäntschi

Department of Physics and
Chemistry, Technical University
of Cluj-Napoca, 400641 Cluj-
Napoca, Romania

Deadline for manuscript
submissions:

28 February 2025

Message from the Guest Editors

This Special Issue aims to present a collection of original research papers and review articles describing solutions for the emerging low-energy building industry, improving environmental quality and sustainable waste management. Topics of particular interest for this Special Issue include, but are not limited to:

- Sustainable buildings;
- Green energy;
- Renewable energy in buildings;
- Materials for sustainable buildings;
- Sustainability;
- Sustainable development;
- Environmental protection;
- Sustainable utilization of wastes;
- Indoor air quality;
- Waste recycling;
- Air, soil and water pollution and methods for limiting pollution.

Aerospace Engineering,
University of Roma Sapienza, Via
Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
