Engineering, University of Ulsan,  
Ulsan 44610, Republic of Korea

Deadline for manuscript  
submissions:

**closed (20 August 2023)**

### Message from the Guest Editor

Dear Colleagues,

I sincerely invite all colleagues who wish to submit research papers to the Special Issue of *Energies* on “Fluid Flow and Heat Transfer Analysis in Industrial Applications”. Although the field is fluid flow and heat transfer in industrial applications, fluid flow and heat transfer analysis in fundamental or applied science fields may also be included. The primary selection criteria for paper acceptance are academic excellence, originality, and novelty of applications, methods, or fundamental findings. The types of research can be experimental, theoretical, computational, and their combinations are equally acceptable. The purpose of this Special Issue of *Energies* is to share new ideas and research results in the energy industry that are related to fluid flow and heat transfer. Therefore, submissions are also possible from other interdisciplinary fields, including energy, mechanical, chemical engineering, and new materials sciences. Of course, research papers on flow and heat transfer in the field of the Fourth Industrial Revolution will also be very welcomed.

## Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Control and Optimization)
