## Advances in Green Energy, Environment and Sustainable Development 2021

Guest Editors:

**Dr. Hongyu Ren**

State Key Laboratory of Urban Water Resource and Environment, School of Environment, Harbin Institute of Technology, Harbin 150090, China

**Prof. Dr. Fanying Kong**

School of Water Conservancy and Civil Engineering, Northeast Agricultural University, Harbin 150030, China

Deadline for manuscript submissions:

**closed (12 January 2022)**

### Message from the Guest Editors

Dear Colleagues,

With the rapid development of our society, environmental problems from industrial, life, and agricultural pollutions are becoming more and more serious all over the world. The whole ecological balance of the earth is changing. The massive destruction of the environment has brought about negative effects and even poses a great threat to humanity.

We must face this situation head on and take action to solve our environmental problems. This special issue focuses on how green energy technologies help to reduce environmental pollution and thus influences the sustainable development of the Earth. The purpose of this Special Issue is to bring together innovative academicians and industrial experts in related fields and establish an academic platform on the communication of latest research and developmental activities.

Thank you very much!

Eudossiana 18, 00184 Roma, Italy

## Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Control and Optimization)
