Message from the Guest Editor

Papers addressing the below topics are invited to this Special Issue, especially those combining a high academic standard coupled with a practical focus on process integration between green hydrogen production and its utilization together with secondary streams and bioresources.

- green hydrogen
- biorefineries
- process integration
- techno-economic assessment
- CO₂ utilization
- bio-based product
- low-carbon strategies

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
