Message from the Guest Editor

Dear Colleagues,

In this Special Issue of *Energy*, we are going to focus on recent and emerging developments in coal mining that have or could have a positive impact on society. The topics are not limited to the keywords below, the only criterion is that there must be a positive impact on society, which clearly includes the workforce. I hope that you will consider submitting a manuscript for peer review into this Special Issue.

The journal has a current Scopus CiteScore of 3.11 and a current impact factor of 2.676.

Yours sincerely,

Prof. Dr. A.J.S. (Sam) Spearing

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
