Deadline for manuscript
submissions:

closed (20 March 2022)

Message from the Guest Editors

Dear Colleagues,

This Special Issue aims to publish high-quality research and review papers related to different fields of science connected with thermal-energy-storage devices and systems.

The topics include but are not limited to:

- Experimental and modeling activities related to thermal-energy storage devices and systems;
- The design and optimization of thermal-energy-storage devices and systems;
- Thermal-energy-storage materials;
- Renewable- and waste-energy harvesting with the application of thermal-energy-storage devices and systems;
- Numerical modeling;
- Ecological aspects related to thermal-energy storage.

Prof. Dr. Piotr Kolasiński

Dr. Magdalena Nemś

Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
