Systems and High-Voltage
Technology, Karlsruhe Institute
of Technology, Karlsruhe,
Germany

Deadline for manuscript
submissions:

closed (20 November 2021)

Message from the Guest Editor

We invite submissions to a Special Issue of the journal *Energies* on the topic of “HVDC Power Transmission: Technology, Systems, and Grid Interaction”. This Special Issue will include but is not limited to:

- HVDC system design (monopolar/bipolar system and rigid bipole)
- Converter technology (LCC and MMC)
- HVDC cables and HVDC overhead lines
- System stability enhancement by HVDC systems, especially harmonic stability
- Multi-terminal HVDC grids
- Grid following and grid forming HVDC control
- HVDC grid protection
- HV-IGBT developments
- Operational experience with HVDC systems

Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
