

Select papers from International Conference on Renewable Energy— ICREN 2019

Guest Editor:

Dr. Carlo Renno

Department of Industrial
Engineering, University of
Salerno, Via Giovanni Paolo II,
132, 84084 Fisciano (Salerno),
Italy

Deadline for manuscript
submissions:

closed (30 September 2019)

Message from the Guest Editor

The International Conference on Renewable Energy series addresses research and development in renewable energy technologies, including energy efficiency. It is an annual meeting planned to be held in different countries, initially within Europe, with Asia, the Middle East, Africa, and Latin America being highlighted as target regions for the conference. The next in the series of the International Conference on Renewable Energy is the ICREN2019, focusing on international participation, including experienced and young researchers with an interest in renewable energy studies. The conference will be held at the UNESCO Headquarters in Paris, France on 24–26 April 2019 and will provide an unsurpassed venue to nurture debate in this globally important area.

ICREN2019 will include articles and presentations on the latest research on renewable energy technologies, grid interactions, energy efficiency, data analytics, economics and finance, environmental and social impact, as well as policy and climate change implications.

Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
