Message from the Guest Editors

Dear colleagues,

“Innovations–Sustainability–Modernity–Openness in Energy Research 2022” provides an opportunity for scientists from all over the world to present their scientific achievements in the area of environmental and energy engineering. This Special Issue focuses on topics such as energy sources, energy storage, and energy efficiency of HVAC and DHW systems. Moreover, we welcome papers discussing sustainability in construction.

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
