Selected Papers from MEDPOWER 2022—the 13th Mediterranean Conference on Power Generation, Transmission, Distribution and Energy Conversion

Guest Editors:

Dr. Brian Azzopardi

MCAST Energy Research Group,
Institute of Engineering and
Transport, Malta College of Arts,
Science and Technology
(MCAST), Corradino Hill, Paola,
Malta

Prof. Dr. Cyril Spiteri Staines

Industrial Electrical Power
Conversion, Faculty of
Engineering, University of Malta,
MSD 2080 Msida, Malta

Deadline for manuscript
submissions:

closed (20 June 2023)

Message from the Guest Editors

The 13th Mediterranean Conference on Power Generation, Transmission, Distribution and Energy Conversion (MEDPOWER2022) will take place at the Grand Hotel Excelsior, Valletta, Malta, from 07 to 09 November 2022.

MEDPOWER2022 will provide the engineers, scientists, technicians, researchers, scholars, and companies with the opportunity to exchange ideas and discuss the latest research achievements in academia and industry. The conference also aims to create opportunities for networking and collaboration through a series of presentations, talks, exhibitions, and special sessions. The conference will cover all aspects of the power system market, design, operation, and planning, including the integration of ICT and energy systems, and address challenges for future energy markets.

Due to the high level of research material published in the proceedings of the conference in recent years, a Special Issue will be published in the MDPI journal *Energies*, featuring selected papers from the 2022 conference.

Department of Mechanical and
Aerospace Engineering,
University of Roma Sapienza, Via
Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
