Department, San Diego State  
University, San Diego, CA, USA

Deadline for manuscript  
submissions:

**closed (17 October 2022)**

### Message from the Guest Editor

Dear colleagues,

A Special Issue of *Energies* entitled, “*Methods of Synthesizing Nano-Materials and Fabricating Nanotechnology Devices*” is open for submissions. This broad topic is important for many exciting emerging technologies. The issue covers fundamental and applied studies of nano-materials topics using computational, experimental and/or theoretical approaches.

Topics of interest include but are not limited to:

- Chemical vapor deposition
- Thermal decomposition
- Hydrothermal synthesis
- Laser-assisted processes
- Flame-assisted processes
- Self-sustaining high-temperature synthesis
- Aerosol-based processes
- Additive manufacturing
- Nanoparticle properties
- Nanostructured materials
- Sensors
- Catalysis applications
- Batteries
- Biotech applications
- Smart materials
- Functional nanomaterials

Department of Mechanical and Industrial Engineering, University Niccolò Cusano, 00166 Roma, Italy

## Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Control and Optimization)
