Economic Approaches to Energy, Environment and Sustainability

Guest Editor:

Dr. Monica Roman

Institute of Economics and
Finance, Warsaw University of
Life Sciences WULS—SGGW, 02-
787 Warszawa, Poland

Deadline for manuscript
submissions:

20 December 2024

Message from the Guest Editor

This Special Issue aims to present and disseminate the most recent advances related to the theories, models, policies, and case studies of economic approaches to energy, the environment, and sustainability.

Topics of interest for publication include, but are not limited to, the following:

1. Energy economics (supply and demand, efficiency, prices, resource scarcity, renewable and non-renewable energy, security, intensity, technological change, low-carbon energy,);
2. Environmental economics (market-based instruments, externalities, public goods, instruments, global environmental issues, climate change, pollution control, travel cost, Sustainable Development Goals, etc.);
3. Sustainability economics (natural capital, sustainable development, circular economy, indicators, ecological economics, decoupling, green GDP, behavioral economics, etc.);
4. Challenges and future energy, environmental, and sustainability economics directions;
5. Energy, environment, and sustainability in countries and industries;
6. Policy and international agreements.

Aerospace Engineering,
University of Roma Sapienza, Via
Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
