Message from the Guest Editor

This Special Issue includes all types of full-length articles pertinent to the mutual impact of energy systems, renewable energies, and energy management with the other sixteen goals. The social, economic, ecological, engineering, environmental, and political aspects of sustainability are areas of interests for this issue. The articles can also address theoretical and experimental consequences of COVID19 pandemic on pursuing the sustainable development goals.

Deadline for manuscript submissions:

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
