Advances of Enhanced Oil Recovery Theory and Method

Guest Editors:

Dr. Bing Wei

State Key Laboratory of Oil and Gas Reservoir Geology and Exploitation, Southwest Petroleum University, Chengdu 610500, China

Dr. Mikhail A. Varfolomeev

Department of Petroleum Engineering, Enhanced Oil Recovery Laboratory, Kazan Federal University, Kazan, Kremlevskaya str. 18, 420008 Kazan, Russia

Dr. Kadet Valeriy

Department of Oil and Gas Reservoir Geology and Exploitation, Gubkin Russia State University of Oil and Gas, 119991 Moscow, Russia

Deadline for manuscript submissions:

closed (28 April 2023)

Message from the Guest Editors

Dear Colleagues,

We are pleased to inform you that *Energies* is launching a Special Issue entitled “Advances in Enhanced Oil Recovery Methods and Theory”. The resuscitation of the global oil price is prompting oil suppliers to seek advanced methods and technologies for increasing oil production. This Special Issue aims to gather the latest results and knowledge in this interesting area, which should be of interest to readers from academia and industry.

We would like to invite you to contribute a paper on your research for publication in this Special Issue. The aim of this SI is to provide an ideal platform to share new and emerging knowledge in enhanced oil recovery from academic institutes and E&P and service companies, and also to meet the urgent technology demand of this area. Take this opportunity to showcase your ideas.

Dr. Bing Wei

Dr. Mikhail A. Varfolomeev

Dr. Kadet Valeriy

Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
