Message from the Guest Editors

The aim of the Special Issue is to focus on issues relating to the various problem areas associated with the idea of sustainable development, in particular in terms of the problem areas for economics and finance and management. It is important for all potential authors that this Special Issue provides a venue for discussing this research problem from an interdisciplinary perspective.

Topics of interest include, but are not limited to:

- energy economics
- policy development
- innovation
- research and development
- competitiveness
- green economy
- concept of sustainable development
- economics of sustainable development
- management of sustainable development
- financing of sustainable development
- challenges and opportunities for sustainable development

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
