Advanced Control, Optimization, Stability and Reliability of Microgrids and Power Systems

Guest Editor:

Dr. Muhammad Akmal

Electrical, Electronic and Future Technologies Subject Group,
Department of Engineering and Mathematics, Sheffield Hallam University, Sheffield S1 1WB, UK

Message from the Guest Editor

Dear Colleagues,

This Special Issue invites submissions that investigate advanced control strategies, emphasizing the need for efficient and adaptable control systems in microgrids.

The topics of interest include, but are not limited to, the following:

- Advanced control of AC and DC microgrids;
- Grid interaction studies for all types of microgrids;
- Optimization techniques to enhance the performance of microgrids and power systems;
- Energy efficiency, cost-effectiveness, and environmental impact of microgrids and power systems;
- Stability of microgrids and power systems under significant penetration;
- Reliability studies in relation to microgrids and power systems;
- Methods to enhance the stability of microgrids;
- Strategies to ensure the reliable operation of microgrids and power systems, even under adverse conditions or cyber threats.

Deadline for manuscript submissions:

15 October 2024

Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
