

PV Systems: from Small- to Large-Scale

Guest Editors:

Prof. Dr. Gorazd Štumberger

Dean of the Faculty of Electrical Engineering and Computer Science, University of Maribor, Koroška cesta 46, 2000 Maribor, Slovenia

Dr. Niko Lukač

Faculty of Electrical Engineering and Computer Science, University of Maribor, Koroška cesta 46, 2000 Maribor, Slovenia

Deadline for manuscript submissions:

closed (30 December 2019)

Message from the Guest Editors

The Special Issue covers, but is not limited to, the following:

- PV materials, including new and further developed solutions, modeling, and simulations
- PV cells and modules
- devices and solutions for PV systems (power electronics converters, DC-DC, DC-AC, optimizers, inverters, micro inverters, sun tracking systems, etc.)
- on-grid and off-grid operation, combined with energy storage
- the integration of PV systems in electric grids, and interaction with electric grids
- the operation and monitoring of PV systems
- modeling, simulation, control, and optimization (components, devices, and systems)
- large-scale applications (GIS, PV resource assessment, etc.)

Potential authors are invited to submit manuscripts containing original or substantially further developed solutions related to PV systems.

Department of Mechanical and
Aerospace Engineering,
University of Roma Sapienza, Via
Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
