Public Policies for Rural Development: Circular Deals, Digital Revolution, and Inclusive Engagement

Guest Editors:

Prof. Dr. Paweł Chmieliński

Department of European Integration, Institute of Rural and Agricultural Development, Polish Academy of Sciences (IRWiR PAN), Nowy Świat 72, 00-330 Warszawa, Poland

Prof. Dr. Mariantonietta Fiore

Department of Economics, University of Foggia, Via da Zara, 11, 71122 Foggia, Italy

Deadline for manuscript submissions:

closed (30 November 2021)

Message from the Guest Editors

The Special Issue aims to be part of the debate on the future of rural areas and the role they have to play in our society in local economies and in the creation of a sustainable food systems and bioeconomy.

We invite articles that creatively analyze the potential of rural areas, document the transformation of human and technical resources, and contribute to the debate on public policy instruments that reflect the directions of change in Europe, especially in light of the ambitious objectives to be climate neutral by 2050. We also welcome articles on rural development pathways and modern policies in different regions of the world.

Keywords: rural policy analysis; food systems; sustainable and circular business models; bioeconomy development and policy; clusters, networks, communities; digital revolution in rural areas; new (bio) rural generation; smart and e-agriculture; rural smart communities and lands; governance and policy coherence; stakeholder involvement; regional and local development; economic and social impact analysis; demand and consumption patterns; value chain analysis; European Green Deal; EU Farm to Fork Strategy; long-term vision for rural areas

Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
