

## Recent Advances in Solar Energy Collectors: Models and Applications

Guest Editor:

**Dr. Hijaz Ahmad**

Section of Mathematics,  
International Telematic  
University Uninettuno, Corso  
Vittorio Emanuele II, 39, 00186  
Roma, Italy

Deadline for manuscript  
submissions:

**closed (20 November 2021)**

### Message from the Guest Editor

Dear Colleagues,

The aim of this Special Issue is to invite researchers to publish your recent experimental and numerical research in the field of renewable energy technologies. Topics of interest for the Special Issue include but are not limited to the following:

- Thermal solar energy
- Energy conversion and efficiency
- Thermal energy storage
- Power converter technologies
- Solar collectors and concentrators
- Aerodynamics and hydrodynamics
- Fluid–solid interactions
- Heat transfer and thermal energy
- Heat exchanger design and other applications
- Modeling and characterization of solar energy material
- Modelling and simulation of the photovoltaic cells and panels
- Methods, algorithms, and circuits for PV system
- New techniques for the characterization of large-area PV fields
- Concentrating photovoltaics
- Cooling techniques of PV modules
- Wind Energy
- Renewable energy exploitation and environment
- Hybrid renewable energy technologies
- Hydrogen and fuel cells
- Biomass conversion

an Open Access Journal by MDPI

## Editor-in-Chief

### **Prof. Dr. Enrico Sciubba**

Department of Mechanical and  
Aerospace Engineering,  
University of Roma Sapienza, Via  
Eudossiana 18, 00184 Roma, Italy

## Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Control and Optimization)
