

Renewable and Sustainable Energy

Collection Editors:

Dr. Bartłomiej Igliński

Faculty of Chemistry, Nicolaus
Copernicus University in Toruń,
87-100 Toruń, Poland

Dr. Michał Bernard Pietrzak

Department of Statistics and
Econometrics, Faculty of
Management and Economics,
Gdansk University of Technology,
80-233 Gdansk, Poland

Message from the Collection Editors

This Special Issue will present the latest scientific, technical and economic developments in renewable and sustainable energy.

Topics of interest for publication include, but are not limited to, the following:

- Energy transformation and institutional determinants of the RE sector;
- Primary fuels, energy, and the renewable energy market;
- Possibilities of RE development;
- Biomass technology and biofuels applications;
- Biogas and biomethane production;
- Wind energy technology;
- Solar, thermal and photovoltaic technology;
- Hydropower technology, wave, tide, and ocean thermal energies;
- Geothermal technology;
- Hydrogen production and fuel cells;
- Proecological aspects in the energy sector;
- Institutional and mental determinants of the RE sector;
- Low-emission economy, decarbonization strategy, prosumers;
- Socio-economic consequences of the development of the RE sector.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and
Aerospace Engineering,
University of Roma Sapienza, Via
Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
