Exploitation of Renewable Energy Sources for Power Generation

Guest Editors:

Dr. Renata Marks-Bielska

Faculty of Economic Science,
Department of Economic Policy,
University of Warmia and Mazury
in Olsztyn, Oczapowskiego 4, 10-
719 Olsztyn, Poland

Prof. Dr. Algirdas Jasinskas

Department of Agricultural
Engineering and Safety, Faculty
of Engineering, Vytautas Magnus
University Agriculture Academy,
Studentu 15A, LT-53362
Akademija, Lithuania

Deadline for manuscript
submissions:

closed (30 June 2022)

Message from the Guest Editors

This Special Issue, entitled “Exploitation of Renewable Energy Sources for Power Generation” for the international journal *Energies*, mainly covers original research and studies related to the abovementioned topics including, but not limited to, economic efficiency of renewable energy sources, the market of agricultural energy raw materials, the use of energy from renewable energy sources in ensuring energy security, the role of clusters in the production of energy from renewable sources, business models in the field of renewable energy, technical aspects of energy production, use of computer tool for modeling energy consumption and others.

We are writing to invite you to submit your original work to this Special Issue. We are looking forward to receiving your outstanding research.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and
Aerospace Engineering,
University of Roma Sapienza, Via
Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
