# COVID-19-Pandemic, Climate Change and Biodiversity Loss - System Crisis Events and Their Impact on Energy Economics and Policy in Central Europe

Guest Editors:

# Prof. Dr. Johannes Casparus (Joost) Platje

Faculty of Finance and Management, WSB University in Wroclaw, 53-609 Wroclaw, Poland

#### Dr. Markus Will

Faculty of Nautral and Environmental Sciences, University of Applied Sciences Zittau/Görlitz, Theodor-Körner-Allee 16, 02763 Zittau, Germany

Deadline for manuscript submissions:

closed (31 August 2022)

# **Message from the Guest Editors**

We are seeking for contributions of scholars in order to better understand the Covid-19 pandemic. We invite research papers on the following general topics of interest:

- Stability/sustainability of energy supply
- Incentives for development of independent energy production
- Photovoltaics: development of the market
- Energy policy: transnational co-operation
- Lessons from Covid-19 for energy supply: are we able to deal with unexpected, extreme events?
- Impact of Covid-19 on investments and energy market
- Impact of Covid-19 on energy use
- Impact of Covid-19 on energy poverty
- Changes in the economic structure and impact on energy markets
- Sustainable provision of energy for transport in the context of stability of energy grids as electromobility is expected to increase, as well as the environmental impacts.
- Social and economic paradigms, technological development, and solutions for energy provisions from the point of view of sustainable energy supply
- Large-scale infrastructural, technological, and economic transformations required to achieve the goal of climate neutrality by 2050

### **Editor-in-Chief**

#### Prof. Dr. Enrico Sciubba

Department of Mechanical and Aerospace Engineering, University of Roma Sapienza, Via Eudossiana 18, 00184 Roma, Italy

## Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

#### **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
