## Smart Power Distribution Systems and the Integration of Distributed Energy Resources to Power Systems

Guest Editor:

**Prof. Dr. Hun-Chul Seo**

Department of Electrical Engineering, Yonam Institute of Technology, Jinju, Korea

Deadline for manuscript submissions:

**closed (30 November 2021)**

### Message from the Guest Editor

This Special Issue will collect research that addresses challenges and countermeasures related to the aforementioned issues. We welcome research dealing with smart distribution systems and the integration of DER in distribution systems. In this Special Issue, we invite original and unpublished research work in areas including (but not limited to) the following:

- Application of artificial intelligence, IoT, big data technology
- Distribution system protection
- Distribution system analysis and operation
- Distributed energy resources
- Energy storage system
- Energy management
- Load forecasting
- Power quality
- Power system transients
- Reliability
- Smart grid

## Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Control and Optimization)
