Department of Political Science, University of Utah, Salt Lake City, UT 84112-9155. USA

Deadline for manuscript submissions:

closed (23 April 2021)

Message from the Guest Editors

Dear Colleagues,

The Special Issue "Social Acceptability of Alternative Energy Technology" will focus attention on the link between science, technology, politics, and society. As Manzella, et al. (2019: v) note, "The public has become a major actor in the techno-scientific debate." We invite papers that reflect upon this new reality that shapes energy policy today and will likely continue to do well into the future. We invite papers that employ quantitative, qualitative, or mixed method analysis in both theory testing and development. Comparative methods are highly valued as well.

Prof. Dr. Brent S. Steel Prof. Dr. Christopher A. Simon *Guest Editors*

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Aerospace Engineering, University of Roma Sapienza, Via Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
