Technical, Economic and Managerial Aspects of the Energy Transition

Guest Editors:

Dr. Maciej Sołtysik

Faculty of Electrical Engineering,
Częstochowa University of
Technology, Armii Krajowej 17,
42-200 Częstochowa, Poland

Dr. Karolina Mucha-Kuś

Department of Management,
WSB University, Ciepłaka 1c, 41-
300 Dąbrowa Górnicza, Poland

Deadline for manuscript
submissions:

closed (31 July 2023)

Message from the Guest Editors

Developing technology, time pressure, counteracting climate change, growing environmental awareness and social expectations require us to be involved on many levels. It becomes necessary to rationally use resources, increase energy efficiency, use renewable energy sources and store it, and seek innovative solutions in technical, economic and management areas. These aspects and a complementary view of the energy issues from at least the indicated three perspectives seem important especially now, when energy transformation processes are underway in many countries.

As part of the presented special issue, we are looking for an original, scientific contribution to the broadly understood energy transformation seen through the prism of technology, economics and management sciences. Contributions can be theoretical, empirical and methodical.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and
Aerospace Engineering,
University of Roma Sapienza, Via
Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
