Recent Advances in Vehicle Aerodynamics

Guest Editor:

Prof. Dr. Lennart Löfdahl

Department of Mechanics and
Maritime Sciences, Chalmers
University of Technology, 41296
Gothenburg, Sweden

Deadline for manuscript
submissions:

closed (31 October 2019)

Message from the Guest Editor

Dear Colleagues,

The objective of this Special Issue is to contribute to the development and optimization of vehicle aerodynamics. This will be done through enhanced scientific and multi-disciplinary knowledge transfer, in which an interaction among different areas within the subject will be encouraged. The focus will be on improved energy-efficiency and safety by taking into account the shifting landscape of electrical propulsion and autonomous driving.

We therefore invite papers on fundamental and innovative technical developments; reviews; case studies; and numerical, analytical, as well as assessment papers from different disciplines in the subject, that are relevant to the development of sustainable vehicles.

Department of Mechanical and
Aerospace Engineering,
University of Roma Sapienza, Via
Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
