### Message from the Guest Editors

This Special Issue aims to publish high-quality research and review papers addressing recent advances in bioenergy. Studies of advanced techniques and biorefinery for biofuel production are also welcomed. Research involving experimental and numerical studies, recent developments, and novel and emerging technologies in this field are highly encouraged.

Keywords:

- biofuel
- bioenergy
- biorefinery
- physical conversion
- thermochemical conversion
- chemical conversion
- biological conversion
- production optimization
- process design
- thermodynamic analysis

## Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Control and Optimization)
