## Advances in Biomass for Energy Technologies

Guest Editors:

**Prof. Dr. Jacek Dach**

Department of Biosystems  
Engineering, Poznań University of  
Life Sciences, Wojska Polskiego  
50, 60-637 Poznań, Poland

**Prof. Dr. Maciej Zaborowicz**

Department of Biosystems  
Engineering, Poznań University of  
Life Sciences, Poznan, Poland

**Prof. Dr. Wei Qiao**

College of Engineering, China  
Agricultural University, East  
Campus, Beijing 100083, China

Deadline for manuscript  
submissions:

**closed (18 April 2023)**

### Message from the Guest Editors

Dear Colleagues,

This Special Issue in *Energies*, entitled “Advances in Biomass for Energy Technologies,” focuses on recent advances in theoretical and applied research, technology development, and the environmental and social impacts of new bioenergy technologies. The issue includes papers that consider novel current research and technologies as well as a literature review. This Special Issue focuses on biogas and biohydrogen production from biomass and biowaste, new technical and technological solutions in bioenergy production, combined systems such as unstable renewables (wind, sun) split with fully controlled biogas or pyrolysis installations, economic assessment of new solutions and technologies, GHG emissions reduction from biomass management caused by new bioenergy systems, environmental impacts of new systems versus old management technologies, modeling of bioenergy processes, including Artificial Intelligence technics (ANN), lifecycle assessments, bioenergy storage and many other related topics.

### **Prof. Dr. Enrico Sciubba**

Department of Mechanical and  
Aerospace Engineering,  
University of Roma Sapienza, Via  
Eudossiana 18, 00184 Roma, Italy

## Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Control and Optimization)
