## Building Performance Simulation, Energy Efficiency and Renewable Energy Resources for Buildings 2022

Guest Editors:

**Prof. Dr. Patrick Salagnac**

LaSIE (UMR-CNRS 7356),  
Université de La Rochelle, Av. M.  
Crépeau, 17042 La Rochelle,  
Cedex 1, France

**Prof. Dr. Monica Siroux**

Institut National des Sciences  
Appliquées de Strasbourg (INSA),  
ICUBE UMR CNRS 7357  
Laboratory, Université de  
Strasbourg, Strasbourg, France

Deadline for manuscript  
submissions:

**closed (20 July 2023)**

### Message from the Guest Editors

We are pleased to announce a new Special Issue in *Energies*, entitled “Building Performance Simulation, Energy Efficiency and Renewable Energy Resources for Buildings”. We are now open for submissions on this topic. This Special Issue will present cutting-edge research results in the field of energy and infrastructure with an emphasis on renewable energy resources for buildings and building performance simulation. The building sector is the largest consumer of energy and still presents major scientific challenges. However, this is liable to change as energy efficiency and renewable energy can work hand in hand to perform a crucial role in transforming this sector. With this in mind, this Special Issue seeks to disseminate knowledge on these topics among the wider scientific community. We are inviting original papers on the theory, design, development and applications of building performance simulation, energy efficiency and renewable energy resources for buildings.

## Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Control and Optimization)
