Cyber Security in Modern Power Systems

Guest Editors:

Prof. Dr. Paulo Fernando Ribeiro

Institute of Electrical Systems and Energy, Federal University of Itajuba, Itajuba 37500-903, MG, Brazil

Dr. Yuri Rodrigues

Engineering and Computer Science, Seattle Pacific University, Seattle, WA 98119, USA

Dr. Maira Monteiro

Institute of Electrical Systems and Energy, Federal University of Itajuba, Itajuba 37500-903, MG, Brazil

Message from the Guest Editors

This *Special Issue* aims to provide new concepts, methods, strategies, technologies and implementation experiences in modern power system cyber security, including active distribution networks (ADNs), microgrids, smart grids, and bulk power systems. Published works will establish clear procedures to address cyberattack detection, mitigation, and correction, as well as cyber security in power systems planning, operation and control. This includes state estimation, event detection, forecasting, control, and protection, among other preventive, corrective and restorative strategies necessary to ensure a safe, reliable, economical, and sustainable energy supply.

Deadline for manuscript submissions:

closed (6 November 2023)

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University Niccolò Cusano, 00166 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compindex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
