Message from the Guest Editors

This Special Issue invites original articles that address state-of-the-art research and developments as well as future trends in (but not limited to) the following topics of interest in electric vehicles:

1. Robust control strategies of electric vehicles;
2. Failure detection and diagnosis in EVs;
3. Fault-tolerant control of electric vehicles;
4. Energy management systems in EVs.

Deadline for manuscript submissions:

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
