WIEN), 1040 Vienna, Austria

Deadline for manuscript
submissions:

closed (22 January 2021)

Message from the Guest Editor

Dear Colleagues,

This Special Issue of *Energies* focuses on the future prospects and impediments of electric mobility. In detail, it highlights the systemic, economic, and environmental aspects of this topic, as well as the supporting policy development. Additional aspects of interest are the sources used for electricity generation and their environmental impact. Papers addressing any of these specific topics are welcome.

- electric mobility
- promotion policies
- economics
- greenhouse gas emissions
- embedded emissions
- life-cycle analyses
- systemic view
- electricity generation
- renewable energy
- energy efficiency

Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
