Enabling Technologies in Power Electronics

Guest Editor:

Dr. Mehdi Baghdadi
Department of Mechanical Engineering, University College London (UCL), Torrington Place, London WC1E 7JE, UK

Deadline for manuscript submissions:
closed (30 January 2022)

Message from the Guest Editor

The Guest Editor is inviting submissions to a Special Issue of Energies on "Enabling Technologies in Power Electronics".

The technology of power electronics and motor drives has gone through a dynamic evolution in recent years due to many innovations in power semiconductor devices, converter topologies, analytical and simulation techniques, machines, drives, and control techniques. This Special Issue will focus on the advancements in the field and invite researchers to submit their research articles focusing on highly efficient, compact, and high power density power electronics technologies.

Dr. Mehdi Baghdadi
Guest Editor

Special Issue

Department of Mechanical and
Aerospace Engineering,
University of Roma Sapienza, Via
Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.
Journal Rank: CiteScore - Q1 (Control and Optimization)
