Energy Conservation in Infrastructures 2016

Guest Editor:

Prof. Dr. Hossam A. Gabbar

Faculty of Energy Systems and
Nuclear Science, Ontario Tech
University, Oshawa, ON L1H 7K4,
Canada

Deadline for manuscript
submissions:

closed (30 November 2016)

Message from the Guest Editor

Dear Colleagues,

This Special Issue invites researchers from academia and industries to submit novel ideas, best practices, and case studies on energy conservation in infrastructures, such as commercial and residential buildings, towers, and houses, and government and public facilities, as well as transportation and roads.

Short and regular papers are expected to discuss challenges in energy conservation measures, analysis, control, and optimization for energy supply, storage, and conversion technologies that cover thermal, gas, and electricity systems.

Prof. Dr. Hossam A. Gabbar (Gaber)

Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
