Energy Economics: Markets, Pricing and Policies

Guest Editor:

Dr. Raymond Li

Canberra School of Politics,
Economics & Society, University
of Canberra, Canberra, Australia

Deadline for manuscript
submissions:

closed (3 August 2023)

Message from the Guest Editor

This Special Issue will bring together high-quality contributions that collectively advance our understanding of the economics and policies of energy markets. We welcome studies focusing on a single market, regional markets, as well as international comparisons. Original research articles, structured reviews, and detailed case studies are welcome. While all topics on energy markets are considered, we particularly invite papers that address the following issues:

- Electricity market (de-)regulation;
- Market design;
- Energy market integration;
- Demand-side management and time-of-use pricing;
- Energy pricing;
- Energy demand analysis;
- Wholesale electricity markets;
- Retail competition;
- Renewable energy economics.

Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
