

Hydrocarbons in Global Energy

Guest Editors:

Dr. Vladimir Kutcherov

1. Unit of Heat and Power
Technology, KTH Royal Institute
of Technology, 100 44 Stockholm,
Sweden

2. Department of Physics, Gubkin
University, 119991 Moscow,
Russia

Dr. Valery Bessel

1. Department of
Thermodynamics and Heat
Engines, Gubkin University,
119991 Moscow, Russia
2. NewTech Services LLC., 115162
Moscow, Russia

Deadline for manuscript
submissions:
closed (31 December 2021)

Message from the Guest Editors

This issue focuses on providing the reliable information required by the energy community under pressure from the transformation of the global energy system. The main topics up for discussion in submissions include but are not limited to the following:

- (1) Hydrocarbon origin. This question is still one of the main questions for the petroleum industry;
- (2) Hydrocarbon reserves. How much oil and natural gas do we have?
- (3) Hydrocarbons and CO₂ emissions. New technologies to safely capture and store CO₂ to mitigate the use of hydrocarbons;
- (4) Paradigm shift on the global energy market: natural gas dominated;
- (5) Barriers and driving forces in the petroleum industry;
- (6) Offshore hydrocarbons projects, Arctic projects.

Department of Mechanical and
Aerospace Engineering,
University of Roma Sapienza, Via
Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
