Building a Roadmap for Cost Effective Energy Use of Non-valorized Biomass

Guest Editor:

Prof. Duarte Alves

PROMETHEUS, Escola Superior de Tecnologia e Gestão, Instituto Politécnico de Viana do Castelo, 4900-347 Viana do Castelo, Portugal

Deadline for manuscript submissions:

closed (31 March 2023)

Message from the Guest Editor

Dear Colleagues,

The Guest Editor is inviting submissions to a Special Issue of *Energies* on the “Improvement of Research Capabilities in Biomass for Optimized Energy Use of Non Valorized Biomass”.

The building of international tension due to the climate crisis and the general public’s focus and demands for increased ambition in measures could provide a new launchpad for leveraging local biomass markets for climate change mitigation and economic development as well to force more impactful environmental policies.

The uncharted potential of local non-valorized biomass makes urgent expert research on a novel multi-layered roadmap leading to a more cost-effective use of biomass for energy, a higher impact on GHG emission savings, and contributing to local circular economy development.

Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
