

Energy Efficiency and Indoor Environment Quality

Guest Editor:

**Prof. Dr. Roberto Alonso
González Lezcano**

Departamento de Arquitectura y
Diseño, Escuela Politécnica
Superior, Universidad CEU San
Pablo, Madrid, Spain

Message from the Guest Editor

Original works that also deal with methodologies, numerical and experimental research, and case studies with a particular focus on the comfort conditions of the occupants and the influence of occupant habits in sustainable buildings and the effects of climate change on the built environment are welcome. Topics of interest include but are not exclusive to:

Deadline for manuscript
submissions:

closed (30 September 2021)

- Efficient ventilation strategies;
- Habits and comfort of the occupants;
- Energy efficient buildings;
- Building codes and standards;
- Sustainable building materials;
- Passive and active strategies;
- Energy-saving strategies;
- Air quality monitoring;
- Air pollution control;
- Housing and health;
- HVAC control systems.

Aerospace Engineering,
University of Roma Sapienza, Via
Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
