

## Fluid Machinery, Systems and Storage Technologies for Clean and Sustainable Energy Generation in 2021

Guest Editors:

**Prof. Dr. Riccardo Amirante**

**Prof. Dr. Pietro De Palma**

**Dr. Paolo Tamburrano**

**Dr. Elia Distaso**

Deadline for manuscript  
submissions:

**closed (10 October 2021)**

### Message from the Guest Editors

Dear Colleagues,

The articles in this Issue will be concerned with one of the most important sectors of the global economy: the production of energy for humanity. Energy production, efficiency, storage, and transportation have been topics of interest since the steam age, since they correspond to the power of nations. At present, with the increasing global emphasis on emissions reduction, global warming, and energy security and sustainability, these subjects have never been more important.

The submission deadline is 30 August 2020. You may send your manuscript at any point from now until the deadline. Submitted papers should not be under consideration for publication elsewhere.

Prof. Dr. Riccardo Amirante

Prof. Dr. Pietro De Palma

Dr. Paolo Tamburrano

Dr. Elia Distaso

## Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Control and Optimization)
