Advanced Energy Materials for Thermal Energy Storage Systems

Guest Editor:

Prof. Dr. Amritanshu Shukla

Non-Conventional Energy
Laboratory, Rajiv Gandhi Institute
of Petroleum Technology, Rae
Bareilly, Uttar Pradesh, India

Deadline for manuscript
submissions:

closed (15 November 2022)

Message from the Guest Editor

Dear Colleagues,

The proposed Special Issue will cover an up-to-date coverage of fundamentals as well as recent advancements in energy efficient thermal energy storage materials, their characterization and technological applications. Research articles based on the status updates on fundamentals as well as substantial innovations, research and development work related to various aspects of energy materials related to thermal energy systems; along with critical insight into future directions will be of high interest.

Prof. Dr. Amritanshu Shukla

Aerospace Engineering,
University of Roma Sapienza, Via
Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
