

energies

an Open Access Journal by MDPI

Frontiers in Power Electronics and Drive Systems

Guest Editors:

Prof. Dr. Andrey A. Radionov

Department of Mechatronics and Automation, South Ural State University, 454080 Chelyabinsk, Russia

Prof. Dr. Sergey V. Brovanov

Department of Electronics and Electrical Engineering, Novosibirsk State Technical University, 630073 Novosibirsk, Russia

Deadline for manuscript submissions:

closed (6 November 2021)

Message from the Guest Editors

Dear Colleagues,

Power converters and drive systems have a large number of industry and energy applications. The electrical engineering scientific community in particular has seen a growing amount of research in the field of control systems, power quality, and efficiency improvement. The Special Issue is devoted to providing and sharing recent achievements in power electronics and drive systems: power converters, electrical machines, industrial drives, electromagnetic compatibility, power quality, power systems, and renewable energy. This Special Issue summarizes research in technical disciplines in universities, research institutes, large industrial enterprises, scientific and industrial associations, as well as research results obtained on the personal initiative of the authors.

We invite you to contribute your high-quality research in the form of research of review articles.

Department of Mechanical and
Aerospace Engineering,
University of Roma Sapienza, Via
Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
