Innovative Functional Materials for Rechargeable Potassium Batteries

Guest Editor:

Prof. Dr. Jang-Yeon Hwang

Department of Materials Science
and Engineering, Chonnam
National University, Gwangju
61186, Korea

Deadline for manuscript
submissions:

closed (31 December 2020)

Message from the Guest Editor

Dear Colleagues,

It is our great pleasure to invite you to submit original research papers, short communications, or state-of-the-art feature articles (comments or reviews) within the scope of this Special Issue. This Special Issue will discuss key technological developments and scientific information on a broad range of rechargeable potassium batteries, such as K-ion, K-O₂, K-S, K-metal, and all-solid-state potassium batteries.

- K-ion batteries
- K-S batteries
- K-O₂ batteries
- K-metal batteries
- all-solid-state potassium batteries

Prof. Dr. Jang-Yeon Hwang

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
